

Introduction to C++ Programming , 2nd Edition: 978-1-942689-38-6

Introduction to C++ Programming, 2nd Edition is a textbook for software developers to familiarize them with the concept of object-oriented programming (OOP). The textbook enables the reader to understand the basic features of C++. The line-by-line explanation of each program, a unique feature of the textbook, enables the students with no previous programming experience to gain a thorough and practical understanding of C++. The chapters in this book are structured in a pedagogical sequence, which makes this textbook very effective in learning the features and capabilities of the software. Salient Features: Consists of 14 chapters that are organized in a pedagogical sequence covering various aspects object-oriented programming (OOP). The first page of every chapter summarizes the topics that are covered in it. Each concept discussed in the book is exemplified by a program to clarify and facilitate better understanding. This textbook introduces the key ideas of object-oriented programming in an innovative way. The concepts are illustrated through best programming examples, covering all aspects of OOP and C++. Step-by-step instructions that guide the users through the learning process. Additional information is provided throughout the book in the form of notes and tips. Self-Evaluation Test and Review Questions are given at the end of each chapter so that the users can assess their knowledge. Table of Contents Chapter 1: Introduction to C++ Chapter 2: Getting Started with C++ Chapter 3: Control Statements Chapter 4: Functions and Arrays Chapter 5: Strings, Pointers, and Structures Chapter 6: Union, Enumeration, and Preprocessor Chapter 7: Data Structures Chapter 8: Classes and Objects Chapter 9: Constructors, Destructors, and Operator Overloading Chapter 10: Inheritance Chapter 11: Virtual Functions and Polymorphism Chapter 12: The C++

Console I/O Operations Chapter 13:
Exception Handling Chapter 14: The File
I/O System Index Free Teaching and
Learning Resources CADCIM
