

## Autopilot Income Success

My course is called Autopilot Income Success because I will reveal everything you need to do to setup an autopilot e-mail campaign which builds the kind of trust and rapport you need to get your subscribers waiting for your offers. So I decided the best way to do this was to write a step by step guide that even a newbie could understand. Even if we do not need Google we will create your website in a way that Google loves for extra fast list building, so even if we do not focus on search engine optimization it will still be included. I figured out that leaving it out completely would just destroy changes of getting a lot of extra free traffic, better included than not included. There wont be any bullshit and there certainly wont must pay for something to get you running, some recommendations may be to paid services but I will in every step give you a totally FREE alternative. Just solid easy to understand information. Step One - Choose A Niche: Find out which niche is perfect for you, selling something to someone who is desperate to get it is definitely a winning formula. I will also show you which niches are most hungry for a solution and where to find affiliate products for you to sell within your niche. Step Two - Keyword Research: Yet again we will not rely on Google, however we do everything by the book, if your site hits number one on Google it will not be a bad thing right? Step by step I show you how to find low competitive keywords that get a lots of searches. Step Three - Choose Your Product: I go through everything you need to no to find which products you are going to sell and what you should consider when you choose your product. Step Four - Choose You Web Host: I will help you to setup a Web Host paid or free, this is included to be newbie friendly. Step Five - Choose Your Autoresponder: I go through the best Autoresponder services available and also a FREE alternative which, once

Step Seven - On Page SEO (Search Engine Optimization): Step by step explained how to make your website optimized for your keyword, again hitting number one on Google would not be a bad thing. Step Eight - Off Page SEO (Back links) And Other Traffic Sources: I will go through FREE techniques how to build instant traffic to your website Without Google but in the meantime that you are getting traffic there will be links for people to click, those are backlinks whether you want them or not they will skyrocket your Google rankings for your Squeeze page, together with the low competitive keywords don't be surprised if you hit page one on Google within three weeks.
