

And Then the Music Stopped Playing

The heart-rending story of a German of liberal Jewish descent who was one of the last to escape to England under the Kindertransport scheme where he first made army uniforms, fire watching in London during the Blitz. Joining the army he fought his own countrymen in the Royal Tank Regiment. He describes his life in Germany under the Nazis, life in action with the Desert Rats as a wireless operator in a Firefly tank from the Normandy beaches to Hamburg, surviving the loss of four tanks on the way, and his life with the British and Russian occupation forces, in the devastated city of Berlin after the war.
