

Candy Crush Saga Gamer Guide: Levels 36-65 (Candy Crush Saga Gamer Guides Book 2)

Looking for a level by level strategy guide for Candy Crush Saga, Americas Most Popular Game of 2013? Look no further! This guide gives you:

- * A level by level breakdown of levels 36 through 65
- * Strategies that will make you a much better player overall as you get into the 100+ levels
- * Molasses traps that will suck you down the rabbit hole if you let them
- * Candy combo advanced tips that I couldnt figure out for the first 100 levels, but now use every time
- * Links to play-through videos so you can see my strategies for each level in action
- * World peace (okay, not really) Everything in this guide is for LEGIT play. There are no cheats or tricks, just rock-solid strategy that will help you navigate and master the game without purchasing extra lives, charms, boosters, etc. unless you want to. I created this unofficial guide for you so that you can:

- * Save Money - Using my strategies you will NEVER have to resort to extra boosters and charms to beat a level
- * Save Time - Instead of spending days and weeks stuck on a hard level, get it broken down for you in simple steps so you know exactly how to prioritize moves
- * End Your Shame - You wont have to stare at Facebook in embarrassment as all your friends pass you on the map, nor will you have to wonder if Candy Crush is sending your friends messages about how youve been Stuck on Level 35 for X days. Instead, youll be cruising past them!

BONUS: Inside the book, I also give you instructions to get two free novels at no additional cost! This is an unofficial strategy guide and the author has no association to the game or the company that owns Candy Crush Saga. Looking for other levels?
