

Philips Hilarious Jokes, Volume 2

Here is the second volume, published due to great demand from readers of the first volume of Philips Hilarious Jokes. Are you fed up of reading the same old tired jokes? One-liners that bore you to death? Then here is a set of jokes that are fresh and hilarious. We have tried to avoid one-liners and present only substantial jokes that makes one to laugh. They are also good to illustrate a point in public speeches and classroom situations. Here are a few salient points: *** We have tried to select jokes that are mostly uncommon *** We have evaluated each joke by narrating it to our friends *** We have tried to avoid jokes with racial slur *** We have tried to avoid jokes that exploit the handicaps of people We are confident that you would enjoy this second volume as much as you did the earlier one. Your feedback would be appreciate to improve this publication and also to produce the forthcoming volumes.
