

## Innocent Victims: Two Novellas

Innocent Victims contains two chilling novellas about seemingly normal people driven to commit the most heinous crimes imaginable. CHICKENFEED is a crackling tale based on the true story of the chicken farm murder in East Sussex in 1924. Although Norman Thorne never confessed to killing his girlfriend, he was tried and hanged for the crime. Told from the points of view of Elsie and Norman, Walters creates a suspenseful tale of fiction based on fact. THE TINDER BOX is the story of Patrick ORiordan, a man arrested for the brutal murder of two women. As shock turns to fury, the village residents unite against the ORiordan family. But neighbor Siobhan Lavenham remains convinced that Patrick is innocent. Jeopardizing her own position within the community, she stands firmly in defense of the ORiordan name.
