

MCS D Certification Toolkit (Exam 70-483): Programming in C#

A perfectly crafted prep guide that prepares you for the MCS D 70-483 The MCS D 70-483 exam is the entry-level Microsoft certification exam for C# developers and this must-have resource offers essential coverage of the exam that will test your competency in C# programming. Each chapter covers one of the core subject domains that comprise the exam. Among the authors are experienced trainers who advised Microsoft on the development of its certification programs, affording them a unique understanding of both the objectives and what it takes to master them. This invaluable knowledge is passed to you so that you will not only be prepared to take the exam, but also become a better C# developer * Features a step-by-step lab tutorial for each lesson covered in the book, encouraging you to practice what youve just learned in order to reinforce your learning * Includes an accompanying website that includes more than 100 simulated test questions and answers * Shares solutions to the hands-on labs presented in the book * Contains complete sample code * Offers a unique author approach that not only teaches you how to answer a set of exam questions but also provides you with an understanding of the underlying concepts and skills needed to succeed as a professional C# programmer MCS D Certification Toolkit is all you need to fully prepare for exam 70-483!
