

The Rodgers and Hammerstein Encyclopedia

Still the most influential and popular songwriting team in the history of the American Musical Theatre, Richard Rodgers and Oscar Hammerstein represent Broadway musicals at their finest. The team revolutionized the musical play with *Oklahoma!* in 1943 and then went on to explore territory never put on the musical stage before in such beloved shows as *Carousel*, *South Pacific*, *The King and I* and *The Sound of Music*. The team also worked in film, as with *State Fair*, and in the new medium of television, with *Cinderella*. For the first time, the lives, careers, works, songs, and themes of Rodgers and Hammerstein have been gathered together in an encyclopedia that covers the many talents of these men. In addition to their plays and films together, every work that each man did with other collaborators is also discussed. Hundreds of their songs are described, and there are entries on the many actors, directors, and other creative artists who they worked with. A complete list of awards, recordings, and books about the team are included, as well as a chronology of everything either man wrote. But *The Rodgers and Hammerstein Encyclopedia* is not just about facts. It explains their work, explores themes in their musicals, and illustrates why they remain a driving force in the American Theatre. This is the first encyclopaedia to look specifically at the careers and works of Rodgers and Hammerstein, covering all their musicals together for stage, screen and television, but also everything they wrote with others. The purpose is to create a comprehensive guide to the American Musical Theatres foremost collaboration. The encyclopedia is (1) comprehensive, describing the works, the people involved in those works, and many of their famous songs; (2) up-to-date, including the most recent revivals of their works and new recordings of their scores; and (3) easy to use, being alphabetically

arranged with cross-reference listings, chronological lists, lists of awards and recordings, and bibliographic information for further reading.
