

## Sacred Space : Stories from a Life in Medicine

At a time when physicians face a rapidly changing practice environment, Dr. Clif Cleaveland reminds us that listening to the patients stories is still the very essence of medical care. Dr. Cleaveland has spent a lifetime listening to patients, and in Sacred Space he shares some of their stories, and what he has learned. Sacred Space is a moving, thoughtful, and unforgettable look at what it takes to be a doctor and a patient.
