

## Silhouettes

Silhouettes is neither a war story, nor a love story. It's both. Basically it tells the story of Annunzio, first generation Italian-American from West Virginia--unsophisticated, naive in many ways--suddenly thrust into raw life. In 1943, barely past his eighteenth birthday, Annunzio left his little hometown of Millville, West Virginia for the United Maritime Service Training Station at Sheepshead Bay, New York. He along with many other young men during that period, were about to have their lives disrupted by World War II. How, he wondered, would he find his way in the dangerous world of the merchant mariner? Relying solely on his strong family ties, a deep sense of religious morality, and a feeling of patriotic responsibility, he made his way from boyhood to manhood. Having had few prior experiences to help guide him through the quicksand-like obstacle course of life, service in the Merchant Marine became his teacher. Silhouettes is mostly a story of Annunzio's struggle to remain honorable amid overwhelming temptations. It is also a story of the Merchant Marine and that group's largely unheralded service during the war. And, it's a love story! Finally, after several dispiriting relationships, Annunzio does discover real love. Silhouettes is a historical novel, based on experiences as recalled by the author, more than fifty-eight years after the actual event. It was written to emphasize the importance of the Merchant Marine, which has become the forgotten service. More than 7000 seamen lost their lives in the war, yet recognition has only been sporadic. These men were heroes in every sense of the word, they deserve more. It was also written to illustrate how one life was affected by World War II.
