High-speed optical signal processing for telecom applications - IEEE Signal Processing Technology and Applications (Ieee Technology Update) [John G. Ackenhusen] on . *FREE* shipping on qualifying offers. **An experiment research on DSP technology in wind tunnel - IEEE** **Charge-coupled devices: Technology and applications - IEEE Xplore** The technology we use, and even rely on, in our everyday lives computers, radios, Speech recognition is a vital application of signal processing its also likely the Tech Advances Upgrade Hearing Aids (link is external) (Machine Design) **Study on the Treatment Technology and Application of - IEEE Xplore** Application of blind signal processing technique on gas-liquid two-phase flowrate Published in: Measuring Technology and Mechatronics Automation **Signal Processing 101 IEEE Signal Processing Society** Crossbar tree networks for embedded signal processing applications opportunity for optical interconnection technology in embedded massively parallel processors for radar signal processing. Persistent Link: <http://servlet/opac?punumber=5595> Change Username/Password Update Address **Intelligent multimedia signal processing: technology, application** Sponsored by: IEEE Signal Processing Society Synchronization of Lorenz-based chaotic circuits with applications to communicat. educational experience, understanding of the theory of learning, robust educational technology, and teacher and institutional acceptance. An updating algorithm for subspace tracking. **Novel design of general - purpose signal processing - IEEE Xplore** Polysilicon Integrated Microsystems: Technologies And Applications. Abstract: with CMOs electronics offers monolithic solutions for inertial sensing and micromechanical signal processing. Persistent Link: <http://servlet/opac?punumber=5818> Change Username/Password Update Address **Digital transmission technologies for video - IEEE Xplore** Coupling the rapid progress on signal processing and VLSI technology with many technologies, wireline or wireless, for video communications applications. **Embedded Digital Signal Processing for Radar Applications - IEEE** In all these applications, signal processing is a key technology enabler. Indeed, signal processing for communications has been an extremely active field in the **Radar Signal Processing and Its**

Applications - Google Books Result Digital Signal Processing (DSP) technologies are widely used nowadays. The process technique and the application of the DSP platform in 2.4 m transonic **Signal Processing Technology and Applications (Ieee Technology** The key components for going into this area are fast A/D and D/A-converters realized in the same technology as the processing and control units as well as fast **Polysilicon Integrated Microsystems: Technologies And Applications** Hybrid signal processing technologies for next generation wireless The design and integration issues of mobile telemedicine applications based on European **The application of VHPIC technology to digitally - IEEE Xplore** Technology Update: Signal Processing Technology and Applications (1995, Signal Processing Technology and Applications (Ieee Technology Update) **The teaching of adaptive signal processing - IEEE Xplore** Nanophotonics technology and applications materials, devices and subsystems for optical communications, information and signal processing, and sensing. **Nanophotonics technology and applications - IEEE Xplore Document** The demonstration equipment is a very high performance VHF/UHF communications receiver in which all signal processing from the channel filter to the audio or **Application of signal processing technology for - IEEE Xplore** Technologies and Applications Perez-Meana, Hector. State University. His research interests include statistical signal processing with application to speech research and education, IEEE Signal Processing Best Paper Award in 1998, and **An eight-channel analog signal processor for VoP applications** Concurrent VLSI architectures for image and signal processing: Applications in image and signal processing Continually improving integrated circuit technology, which now allows transistor Persistent Link: <http://servlet/opac?punumber=45> Change Username/Password Update Address **The InvestiGATOR: integrating todays technology with - IEEE Xplore** of a one semester course on adaptive signal processing to a class of postgraduates. architectures, applications and real world DSP implementation technology. parameters (such as step size, forgetting factor, leakage, update rate, etc.) The paper reports on an industrial application of modern signal processing technology in the development of a new automatic conveyor and bolting machine fo. **Tutorial: 65 NM FPGAs, A Look Under the Hood Technology** Novel design of general - purpose signal processing and communication board and communication applications, based on cutting - edge FPGA technology, **Advances in Audio and Speech Signal Processing: Technologies and - Google Books Result** We discuss high-speed optical signal processing for telecom applications. University of Electronic Science and Technology of China, Chengdu, China, **Technology Update: Signal Processing Technology and - eBay** IEEE Trans. Signal Processing, vol. Radar Processing, Technology and Applications VI, vol. 3810 IEEE Inter Geosci, and Remote Sensing Symp., vol. **Concurrent VLSI architectures for image and signal processing** The mixed signal chip is implemented in TMDP 0.6 um CMOS technology. Persistent Link: <http://servlet/opac?punumber=7722> are used for A/D and D/A conversions and a RISC/DSP core is employed for processing the digitized voice signals. Change Username/Password Update Address **A novel VCT for analog IC applications - IEEE Xplore Document** Multimedia technologies will profoundly change the way we access information, conduct business, communicate, educate, learn, and entertain. Multimedia tech. **Digital Signal Processing for Video Applications - IEEE Xplore** Loop technology (LOT) as an alternative surface surveillance system loops, a mature technology, to the airport surface surveillance application. The project also involves a technology transfer of neural network signal processing technology from Department of Defense to . Change Username/Password Update Address **Signal Processing for Assisted Living: Developments - IEEE Xplore** Study on the Treatment Technology and Application of Charge Coupled Device. Abstract: The Published in: Image and Signal Processing, 2009. CISP 09. **Application of Blind Signal Processing Technique on - IEEE Xplore** Embedded Digital Signal Processing for Radar Applications The recent advances in computing technologies make it affordable to exploit the flexibility of **Loop technology (LOT) as an alternative surface - IEEE Xplore** It can be implemented in CMOS technology. A novel VCT for analog IC applications The network will find use in many important analog signal processing **Advances in signal processing for wireless and wired - IEEE Xplore** It describes several aspects of the technology that affect speed, density, and power consumption. opportunities for novel applications in digital signal processing, communications, computing Persistent Link: <http://servlet/opac?punumber=4095018> Change Username/Password Update Address **Hybrid signal processing technologies for next - IEEE Xplore** Charge-coupled devices: Technology and applications. Published in: IEEE Sponsored by: IEEE Signal Processing Society. First Page of the Article.
