

The Secret Diary of a Call Centre

Once told by a well-meaning teacher that he could be whatever he wanted to be CG has, since his first call centre job at the age of 18, spent on-and-off just over a decade in the call-centre. From big glass-and-steel air-conditioned open plan offices to seedy backrooms in red light districts, from the public sector to the private CG has been there taking and making calls. Hes endured the murderous rages of customers and the oppressive policies of call-time obsessed managers, surviving and maintaining his sanity only by writing it all down in his award-winning blog The Secret Diary of a Call Centre. The book tells the story of one persons journey through call centre hall and back. Whether you are a call centre employee, or a customer this book is full of illuminating insights into the world of the call centre - a world which can be dull and oppressive with just the very occasional bit of humour.
