

The Faces of Struggles Such as Cancers Are on the Journey to Gods Glory

This book is my testimony of how God used me through life's struggles to bring glory to His name. It tells of how He prepared me with the help of my family, from the time of my birth to the present, using an imperfect body and person to carry out His will. A testimony of how my walk with God has helped me to understand how insignificant the physical body is and the power of the Spirit of God from within. When the Spirit lives within, it shines outwardly for others to see. Friends and relatives submitted contributions of how I have inspired them on this journey. I was taken aback when so many people with whom I have been in contact told me I have been an inspiration to them. My prayer since then has been that God would keep me humble so that His will would be done because it was not about me, it is all about Him. My story tells of the powerful message that God is true to His promises, and how He uses people to carry out those promises. I have come to witness that God, through Jesus Christ, is the head of the healing process, followed by doctors, medication and the people with whom He surrounded me. It is indicated in I Peter 1:7 (KJV) That the trials of your faith, being much more precious than of gold that perisheth, though it be tried with fire, might be found unto praise and honour and glory at the appearing of Jesus Christ.
