

## Tesla And Twain

This novel is set between 1890-1912 & is based upon the lives of two of the most famous people of that time. The characters of the title are Nikola Tesla, the infamous inventor & the even more famous author Mark Twain. In this book Twain goes by his real name Samuel Clemens. In real life these two people knew each other & were friends, the novel expands on that relationship. In this book Nikola & Sam collaborate on various exploits that include Nikolas attempts at developing wireless messages, electrical energy from lightening storms, creating flying machines & a new weapon called a ray gun to name just a few. This book intends to capture their characters; both being a celebrity of the time they had their various quirks & phobias, especially Tesla who had a phobia against germs. They also gambled their money on various inventions & enterprises that often did not go favourably.
