

The Woman Who Thought too Much: A Memoir

Joanne Limburg thinks things she doesn't want to think, and does things she doesn't want to do. As a young woman, obsessive thoughts and compulsive behaviours had come to completely dominate her life. She knew that something was wrong, but it would take many painful years of searching to find someone who could explain her symptoms. *The Woman Who Thought Too Much* is a vividly honest, beautifully told and darkly witty memoir about the quest to understand and manage a life with Obsessive-Compulsive Disorder.
