

Triumph, Tribute & Tri-County: A Jubilee Chronicle of Tri-County Telephone Association 1963- 2013

Tri-County Telephone Association is a leader in telecommunications in the Midwest. This book chronicles the early years of telecommunications, the successes and obstacles involved in building a small local utility into a major rural cooperative. It covers the early days when phone lines were simple wires strung along the fences of cattle pastures and continues to the modern world of cellular phone service and cable television. It includes the story of how Tri-County Telephone was caught up in the investigation of the Oklahoma City bombing. It is also an introduction to the hard working people of Kansas who found ways to develop a company that could provide excellent service and become an integral part of the rural community.
