

Diary of a White Collar Criminal

In his intimate diary, Jerome Mayne shares his life saving lessons of ethics, morality, trust and humility, with wit and passion. In his 20s, Jerome was an aspiring finance professional on his way to the top. With his new family and his sights set for success, the world was his oyster. Lured by the prospect of big business, his career derailed when he joined forces with his future co-conspirators in a real estate scandal. The nightmare begins with a hurricane of FBI investigations, criminal court and prison. His journey twists and turns through the psychological collapse of prison and cancer. Through it all, he believed that everything would be ok. What is the outcome? A new life of integrity, trust and self confidence?
