

Moundsville (WV) (Images of America)

From 250 to 150 B.C., the Adena people constructed a burial mound by moving 60,000 tons of earth. The resulting formation, the largest conical burial mound in the country, is located in the middle of the namesake town of Moundsville, West Virginia. Although the Grave Creek Mound, as it is now called, attracts spectators from miles around and is the showpiece of the locals, it is not the only noteworthy feature of the town. Fokker Aircraft Factory, the Fostoria Glass Company, United States Stamping Company, and the Marx Toy Company were all located in Moundsville and nearby Glen Dale, and many of the employees were town residents. The area is also home to the old West Virginia Penitentiary, which is now a national historical landmark, and the Daily Echo, a country newspaper that has been the voice of the community for more than 100 years. The county seat of Marshall County, Moundsville is a Southern town immersed in history and full of people dedicated to its preservation.
